EMT Program

The EMT-Basic program is a comprehensive course designed to train the participant in Basic Life Support and Emergency Care. This program is considered to be the entry-level for a career in Emergency Medical Services. This program meets the requirements for the Missouri Department of Health (Accreditation #09519P), U.S. Department of Transportation, and the American Heart Association Basic Cardiac Life Support.

A total of 176 hours will be spent in classroom and practical skills training. There are also 54 hours of clinical experience in the pre-hospital (ambulance) and hospital clinical settings.
